

HALKE PHULKE PACKAGING REDESIGN

Project Overview

This project focused on redesigning the packaging for Haldiram's Halke Phulke to create a more exciting and youthful visual identity. While Haldiram's already had strong brand recognition, the existing packaging lacked energy, storytelling, and shelf appeal, especially for younger consumers.

The goal was to make the product feel more playful, vibrant, and memorable while still staying connected to Haldiram's trusted image.

Research & Problem Identification

Research showed that the original packaging had several limitations:

- Dull visual appeal and low shelf impact
- Minimal creativity and playful elements
- Limited connection with younger audiences
- No strong storytelling or personality
- Missing visuals to highlight the snack's light and airy texture

These insights became the foundation for the redesign direction.

Design Concept

The new packaging was inspired by the excitement and magic of a **circus carnival**. The concept combines playful illustrations, vibrant colors, and flowing graphics to create a fun and energetic snacking experience.

The wind-like patterns symbolize the snack's light and crunchy texture, while the circus tent imagery reinforces the idea of entertainment, excitement, and surprise in every bite.

Three flavors were redesigned with refreshed names while staying true to their original taste profiles:

- **Tangy Tomato Blast**
- **Sour Cream Delight**
- **Salty Savory Twist**

Color Palette

Each flavor was given a bold and distinctive color palette to improve shelf visibility and flavor recognition.

- **Red** for Tangy Tomato Blast represents energy and bold flavor.
- **Green** for Sour Cream Delight reflects freshness and creaminess.
- **Blue** for Salty Savory Twist creates a cool and balanced savory feel.

Bright yellow and gold accents were also used to maintain Haldiram's recognizable brand identity while adding warmth and vibrancy.

Typography

Rounded and playful typography was chosen to reflect the snack's light and airy nature. The softer letterforms help create a youthful and approachable personality, while the bold flavor banners improve readability and make each variant instantly recognizable on shelves.

Visual Elements

The packaging includes circus-inspired illustrations, confetti details, performer graphics, and flowing patterns to strengthen storytelling and make the design feel lively and immersive.

Large chip visuals were also added to highlight texture and enhance appetite appeal.

Advertising Campaign

An ad campaign was developed alongside the redesign under the concept of a **“Chip Carnival.”**

The story follows a young boy entering a magical carnival world inspired by Halke Phulke chips, where circus performers represent different flavors:

- Fire eaters for Tangy Tomato Blast
- Acrobats for Sour Cream Delight
- Jugglers for Salty Savory Twist

The campaign concluded with the tagline:

“Where every bite is a carnival delight.”

Final Outcome

The redesign transformed Halke Phulke into a more engaging and youthful snack experience through vibrant visuals, playful storytelling, and stronger flavor differentiation. The final packaging successfully balances fun, flavor, and brand

recognition while creating stronger appeal for modern consumers.
